

*Discover The Difference Of A Company That Does...*

# Area Rugs Only

## **You've Got To Be Careful!**

Allow a carpet cleaner to clean your fine area rugs - and you may end up **BIG** problems like: Color bleed, Fade, Mildew, Shrinkage, Frayed or unraveled fringe, Misshapen, Nap distortion, Spots set into stains, Weakened and shedding fibers.

## **You Don't Want To Take Chances With Your Precious Area Rugs, Do You?**

They're part of the family; their colorful personality brings life to your home every day. (You might even think of them as your babies). But if they aren't clean, colors won't be as bright, the design will be a little hazy and the true beauty won't shine through.

I know...I love area rugs; in fact I'm obsessed with them. For over 22 years I've been doing Authentic Full Immersion "Hand-Washing" on all kinds of area rugs. (I don't mean to sound boastful, but I'm a master at it). I'll treat your rugs gently, combining old-fashioned hands-on care with modern techniques.

## **What Exactly Makes Me Different?**

I thoroughly inspect your area rug before and after washing and advise you of any special situations. My skilled weavers will repair loose or torn areas. (And don't worry, I'll tell you what to expect beforehand - so there won't be any surprises) - **unless you consider craftsmanship and service the way it used to be... or it's FREE!!!** - a nice little surprise. So if you really want your baby to be in good hands, call me at 326-9432 and schedule your appointment today. - **William A. Marshall**

## **Rug Specialists**

*Specializing in Native American and Oriental rug washing and repair.  
Craftsmanship and service the way it used to be...or it's FREE!!!*
